Samba Cup 2024 - The highlight of the year

Dear Vlastimil, many thanks to you, your family, your club LMK Litomyšl and all the many helpers and, above all, sponsors who made this truly fantastic competition possible.

There was really everything going on this weekend that this competition can rightly be considered the highlight of the year.

Above all, the really perfectly organized competition, which with 128 participants even had more participants than the preliminary competition for last year's World Championships. 16 starting positions, all staffed with their own timekeepers for each pilot, who carried out their job really conscientiously and checked everything. In addition, a continuous, timely publication of the results with all flight details on paper lists and online on GliderScore, so that everyone could monitor their flights transparently and everyone could adapt their own flight strategy to the current ranking lists. Really really well done. As a pilot you couldn't ask for more.

And then the competition had tested the pilots from super thermal conditions with take-off altitudes of 14 m for 1000 points to difficult windy conditions with take-off altitudes of 249 m (!) for 1000 points up to maximum take-off altitudes of 297 m (!) still not enough for even 8 minutes of flight time, to determine the pilots who were the best coped with these changing conditions. The weather report on the last page of this report cannot reflect these weather extremes. And if rain and another break in thunderstorms hadn't led to interruptions in the competition, then 8 rounds could have been flown instead of just 6.

Of course, the Samba Cup is also known for its huge raffle with many, many prizes and the main prize is an F5J model - this year with a Prestige 2PK Pro.

Anyone who was there could see that everything had been thought of and everything was taken care of. A large marquee where everyone could sit together and eat and drink in the rain. 5 warm meals over the 3 days of the competition, continuous drinks sales and helpers everywhere, including the small children who picked up the scorecards from the timekeepers and brought them to the continuous evaluation. There are still many details to mention.

So thank you very much Vlastimil to you and everyone who helped...
