1st Eibenwaldpokal 2024

Visiting southern Germany at the Weilheim - Peißenberg air sports club

The competition was actually fully booked with 120 registered pilots, but apparently many pilots were put off by the weather forecast with rain and strong gusts of wind and simply didn't come. That was a bad decision because in the end the weather was much better than the forecast. And so 90 pilots from 9 countries were able to experience an excellently organized competition with many highlights.

First and foremost, the fantastic infrastructure of the huge manned sports airfield and the outstanding hospitality of the club members should be mentioned. Everything was simply taken care of. All day long there was hot food, hot and cold drinks and super delicious home-made cakes. And for the short breaks in the rain, an aircraft hangar was available for all pilots, so that the time in the dry could be used for many conversations and for making contacts between the pilots from the different countries. But there was also another hangar available for the models as rain protection, in which the models could remain assembled overnight.

A total of 18 lanes were available for the competition (for the originally expected 120 pilots), of which up to 16 lanes were actually used. And so, despite the rain that kept coming on on the first day, 6 full rounds with 90 participants and then 3 fly-offs with 14 participants were flown instead of the planned 8 preliminary rounds.

The pilots were also required to cope with a wide range of weather conditions, from strong winds to strong thermals with changing wind directions. On the one hand, take-off heights of 14 m were possible for the 1000 points; on the other hand, take-off heights of 150 m or more were often required for a 1000 points. But 276 m were also needed for the full flight time, although there was "no" 1000 points for that.... The following pictures can show it much better than can be written here.

The fact that the Weilheim - Peißenberg air sports club is also something special can be seen behind the scenes with the real aircraft, which you otherwise only very rarely get to see anywhere in this quality. Many high-performance gliders alongside biplanes, such as a Pitts Special. The highlight after the preliminary rounds of the competition was an aerobatics demonstration, during which, among other things, a heart was conjured up in the sky using smoke trail paraffin.

So far, a few impressions in writing.

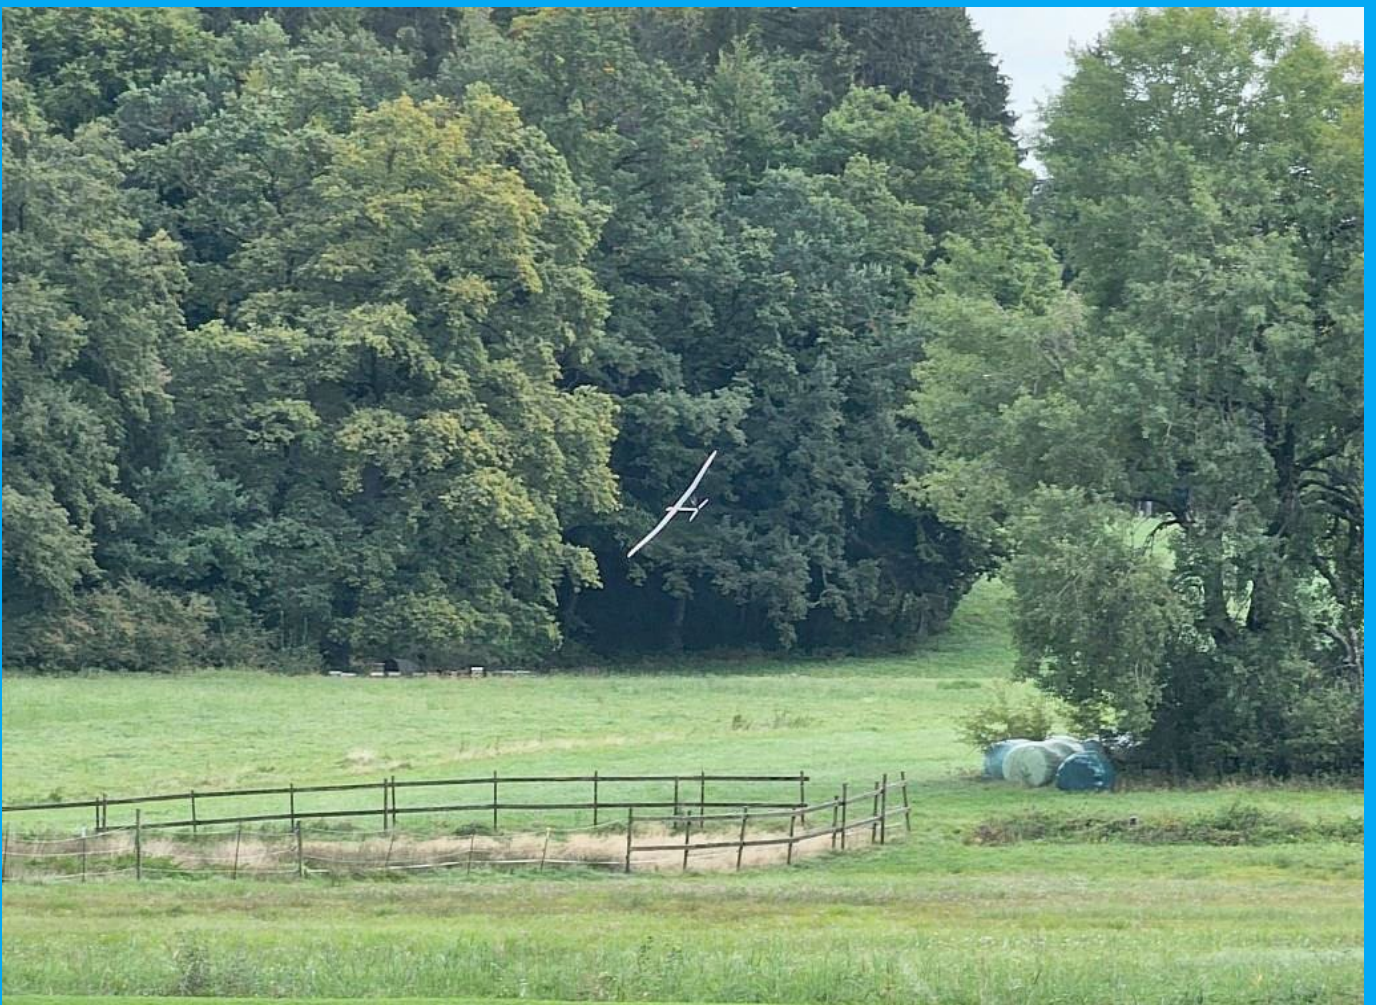

Many thanks to everyone who made this excellently successful competition possible...

....we would all be very happy if we could be guests of the Weilheim - Peißenberg air sports club again next year and are looking forward to the 2nd Eibenwald Cup in 2025
